

Sustainability Policy

Keller Pty Ltd aims to positively manage its contribution towards a sustainable economy. The Company will achieve this through the continuous improvement of our business products, services and operations and our environmental performance.

Sustainability objectives

- Promote sustainable business growth
- Keep our people healthy and safe
- Support the low carbon economy
- Limit our environmental impact
- Be a responsible and inclusive employer
- Engage positively with communities

The Company will ensure the delivery against the objectives through the following measures:

- Ensuring our customers and employees understand our contribution to a sustainable economy and to encourage innovation, best practice and knowledge sharing
- Measuring and reporting our carbon contribution from our activities
- Minimising our impact on the environment in line with common working practices and client needs by adopting a systematic approach to controlling spillages, pollution control and waste management
- Where practicable procuring materials, goods and services sustainably with an emphasis on supplier diversity, fair employment and environmental attributes
- Providing regular progress reports against our overall objectives and communicating our achievements and learnings.
