

Environmental Policy

Keller Pty Ltd aims to identify and minimise any adverse impacts that our activities may have on our environment whilst undertaking foundation and ground improvement works, maintaining plant and equipment and manufacturing precast piles.

The Company will review and monitor its performance on an ongoing basis to comply with the requirements of AS/NZS ISO 14001.

In order to achieve these objectives, the Company will:

- Ensure that Environmental Management is an integral part of the business culture
- Establish, monitor and review achievement of environmental objectives and targets
- Monitor conformance, maintain and continually improve the Environmental Management System
- Consult with staff, suppliers, clients, business partners and other interested parties to mitigate environmental harm and provide opportunities for improved environmental outcomes.
- Identify and comply with relevant Commonwealth, State, Territory and local legislative requirements at each of our workplaces
- Identify environmental aspects and impacts of our workplaces and processes, formulate appropriate control measures and allocate responsibility for implementation and review
- Ensure commitment to the use of sustainable resources (where practicable)
- Implement control measures to minimise negative impacts on biodiversity and eco systems

The Company considers that the involvement and personal commitment of all individual employees is fundamental to establishing and maintaining high standards of environmental protection.
